## EMPLOYMENT HISTORY

### Senior Frontend Engineer, Foundy

London

Jul 2022 — Present

Working as a Frontend Lead (contractor/part-time), I have been helping this Startup to achieve their goals and improve their product and website design.

My Tech Stack is:

- ReactJS
- Material UI
- TypeScript
- NextJS
- NodeJS

### Engineer Manager / Practice Lead, Kellton

Dublin

Jan 2020 — Present

Working as a Practice Lead and Engineer Manager, I help my colleagues to achieve their maximum potential and our teams to deliver high quality products.

The Tech Stack on my current position is:

- Javascript/TypeScript
- NodeJS (ExpressJS, NestJS)
- Prisma ORM, TypeORM
- ReactJS - React Native
- VueJS
- PostgreSQL
- Redux/Redux Thunk/Redux Saga
- React Query

### Senior Software Engineer, Jet/Walmart

Dublin

Jul 2019 — Jan 2020

Worked as a Senior Software Engineer helping Walmart Labs to implement their need calendar/employee management system.

Our Tech Stack at the time was:

- TypeScript
- NodeJS (HapiJS)
- ReactJS
- Redux

## Senior Web Developer, Travelport

Hollystown

Sep 2018 — Jul 2019

Part of a team delivering a travel web application to a significant customer in the USA.

The project was built using AngularJS/Redux but was in a phase of transition to ReactJS/Redux.

While on the team I helped junior members and on different projects and teams.

## Javascript Developer, Kuhlmann (Bureau Veritas)

Jan 2018 — May 2018

Worked as a contractor helping Kuhlmann to achieve the required performance and stability on their web application, the application was built to help in agriculture to make the exact mixtures for fertilizers.

The Tech Stack was:

- Plain JavaScript
- NodeJS
- Kendo UI

## CTO, TechPublic Studio

Curitiba, Brazil

Apr 2017 — Jun 2019

This is a company that I founded with others.

The project behind this company was created to help politicians in Brazil to manage their electorate, send campaigns, contact information (CRM/CMS).

The Tech Stack on this project was:

- Plain Javascript
- PHP Backend
- Custom CSS
- PostgreSQL

## IT Manager, Office of the Attorney General

Curitiba

Jul 2016 — Dec 2017

Worked as a IT Manager with a lot of hands on code.

My work was to manage the web application that all attorneys from the State would use to handle theirs prosecutions, along with implementation of new websites and SaaS.

My Tech Stack there was:

- JavaScript
  - Java
  - PostgreSQL
  - Material UI
  - Node JS
  - Custom CSS
-

## EDUCATION

---

### **Graduation in IT Management, Dom Bosco University**

Curitiba

2012 — 2014

I did my degree in IT Management with a lot of focus on development for web and mobile devices.

During my university I was able to develop mobile applications on native code for Android and iOS and web applications using from PHP to NodeJS to AngularJS
